It is important to note that for all of the following involved people, the last names are variously spelled as Steel, Steels, or Steele. Given the below evidence, there is a very good probability it's the same person, despite the spelling differences of Steel and alias Steels.

Selma Steels also appears in the 1940 US Census. In it, he is married to Doris Steels. Their respective ages were given as 28 and 21, which indicate birthdays in 1912 and 1918, respectively. They also had two children, Lucy (b. ~1940) and Jacqueline (b. ~1938).

Another source corroborated that Selma Steele married a Doris (nee Burgen) born 1918:

A genealogy database returns the following for Doris Steel:

Name:	Doris Mae Steels
Event Type:	Residence
Event Date:	from 1 Dec 1993 to 13 Nov 2000

The Social Security Death Index indicates that Doris Mae Steels died in June 2000:

STEELS, DORIS M. **was born** 15 December 1918, received Social Security number 369-24-7434 (indicating Michigan) and, Death Master File says, **died** 9 June 2000

Selma Steel, registered at 5991 Seneca, who voted is the same as the one who married Doris and appears on the 1940 census above (it is far too coincidental to have matching names, DOB, location and wife name.) Which means that the Selma Steel who voted **must be 108**.

It is highly likely that the SSDI record does correspond to the Selma Steel from the voter roll, due to the precise birthday and death location. Further, a 108 year old Selma Steel and a 99 year old Doris Steel is unlikely.

It should be noted that a different Selma Steele born in 1944 resides in the same zip code:

Name:	Selma L Steele
Event Type:	Residence
Event Date:	from 1 Dec 1988 to 25 Mar 2008
Event Place:	Detroit, Wayne, Michigan, United States
Event Place (Original):	Detroit, Michigan, United States
Previous Residence:	Detroit, Michigan 48213
Previous Residence Postal Code:	48213
Birth Date:	15 Jul 1944

Steele's (with an e) has the middle name Lamount:

A third Selma Lmr Steele was born August 1955 in the same zip 48213

According to his voter profile, Selma was registered January 1, 1900, or 12 years before birth. Possibly an administrative error, we uncovered over 16,000 similar cases in Wayne County.

Regardless of whether more than one Selma Steel exists, the voter roll only lists ONE Selma Steel registered to vote, born in 1912, who cast a ballot for the 11/3/20 election.

Three possibilities explain this:

1. There were two Selma Steel's born exactly on Jan 26, 1912 with one marrying Doris, appearing in the 1940 census, and voting at age 108, and the other having died in 1992 according to the SSDI. This seems extremely unlikely.
2. Selma Steel (born 1912) had a child also named Selma Steel (born 1944) who never registered to vote, but votes on his/her dad's registration, possibly due to the same name. Somewhat possible, but technically still fraud.
3. Or the most obvious and simplest answer: Voter fraud.

Other Notes:

- Lucy and Jacqueline do not appear linked to any of the residents of 5991 Seneca St.
- This could also be a case of identity theft.
