

FOR IMMEDIATE RELEASE

VOTER INTEGRITY PROJECT - voterintegrityproject.vote@gmail.com

8 November 2020

We discovered an extremely unusual situation with another felon voter at multiple addresses in Michigan. When we searched Milton Lawrence in Michigan without zip code and date parameters, we unintentionally came across multiple addresses for one man.

A search for Milton Kenneth Lawrence in Michigan yields 8 addresses.

5 appear under Milton Kenneth Lawrence III, born December 1, 1979, at different addresses:

Interesting to note that Milton Kenneth Lawrence III is also a felon and sex offender:

https://www.publicpolice.com/michigan/doc-prisoner/LAWRENCE_MILTON/496003

Per his arrest records, his 2016 address was:

1234 Lapeer Ave, 2
Port Huron, MI 48060

The Lapeer address was not listed under voter registration records:

As a registered lifetime sex offender, the most current data places him at:

1030 Pearl St, 4
Port Huron, MI 48060

Oddly, he does not have a voter registration record at that address, but does have voter registration in 2 other apartments within the same building:

1030 Pearl St, 1,
Port Huron, MI 48060

1030 Pearl St, 5
Port Huron, MI 48060

The Michigan Voter index states that he has not received an absentee application:

Now, whether Mr. Milton Kenneth Lawrence III is a felon or sex offender is a moot point, although it does raise several questions about the character of this person who has not only multiple criminal records but 10 addresses registered in his name.

Did he or someone else at his past addresses vote multiple times using each address? Is he or someone else committing tax fraud, welfare fraud, and/or identity theft? Was his father who has a nearly identical name and same zip code but a different birth year involved?

His father, Milton Kenneth Lawrence, Jr. born September 5, 1950 is registered in the same zip code and 2 other addresses: <https://voterrecords.com/voters/mi/milton+lawrence-1941to1950/1>

The Secretary of State may claim that they only sent the absentee voter application to Milton K. Lawrence III's latest address, which, if true, why does he have registration at multiple addresses per the 12 October 2020 data? Under which of these 9 addresses tied to the zip code (possibly 11 if including the ones from his arrest records) does his absentee voter ballot fall?

Even if no voter fraud occurred, the opportunity presents itself easily. This situation indicates that the Michigan voter registration system needs more transparency in helping eliminate multiple addresses and showing at which address(es) the voter is listed.
